STATE ENVIRONMENTAL COMMISSION MEETINGS - 1990 July through December

JULY 26, 1990

Appeal Hearing:

- Glenn Wasson
- Dorothy M. Boettcher
- Mike Dolan

Regarding Underground Injection Control Permit # NEV89061 which the Division of Environmental Protection proposes to issue to Cyanco for their facility in Humboldt County near Winnemucca.

AUGUST 28 AND 29, 1990

State Revolving Fund:

Proposed amendments to NAC 445 of the Water Pollution Control Regulations governing the State Revolving Loan Fund for financing the construction of Wastewater Treatment facilities.

Reclamation and Mining Regulations:

Proposed regulations governing reclamation of lands disturbed by exploration projects and mining operations.

Hazardous Waste Consultant - Contractor Certification:

Proposed regulations governing the certification of environmental consultants and contractors. These regulations specify that no person shall perform or be hired to provide the services of hazardous material or regulated substance management, hazardous waste response, hazardous waste transportation, underground storage tank handling or underground storage tank testing without having the appropriate certification from the Division to provide those services.

Hazardous Waste:

Proposed amendments to the hazardous waste regulations, NAC 445.842 to 444.960, inclusive, to adopt by reference federal regulations as they exist on July 1, 1990; to correct possible conflicts of duplication of State and federal regulations. The amendments also delete several duplicative State regulations, and limit the size of a community recycling center.

Proposed regulations relating to the remediation of hydrocarbon (petroleum) contamination in soils and ground water.

Proposed regulations to establish and administrative schedule of fines for violations of the hazardous waste regulations. Nevada

Revised Statute 459.500 (2) provides that the Commission may establish through regulation administrative fines up to \$2,500 per violation.

Water Pollution:

Proposed amendments to NAC 445.42515 of the Water Pollution Control Regulations pertaining to underground injection control permit fees.

Air Pollution:

Proposed amendments to Air Pollution Regulations, NAC 445.430 through 445.846, inclusive, including new sections on volatile organic compounds, internal combustion engines and procedures for changing permit restrictions; and proposed amendments to NAC 445, paragraphs 452, 517, 5635, 569, 6605, 667, 675, 694, 697, 700, 705, 706, 707, 708, 709, 711, 712, 715, 716, 721, 724, 730, 731, 732, 734, 745, 746, 748 and 754.

Disposal Control Services Inc.

Law suit settlement.
